need lime for the teeth. All children need lime for a healthy formation of the growing bones. Curvature of the spine, bow legs, and soft bones do not have enough lime. When children are thin they need material for making flesh.

Scott's Emulsion

contains lime, and also the very essence of rich blood and healthy flesh. It has a remarkable effect on babies and children, insuring a healthy growth. The problem is simple. Scott's Emulsion contains the actual elements of food in an easy form for digestion and assimilation. Try it.
